

ABOUT PSKN

The Professional Security Knowledge Network (PSKN) is Canada's expert provider of online training for security guards and investigation professionals. Established by the Canadian Police Knowledge Network, PSKN is a trusted source for high quality Canadian content and learning services.

PSKN was first established in 2012 (as the Private Security Training Network) to develop, deliver, and support learning in Canada's private security and investigation sector. Working with security, investigation, and public safety experts, we provide online training and learning services to develop the skills and knowledge most needed by frontline personnel. Whether you're an individual looking to launch a new career or a company with employees around the globe, PSKN has your training solution.

For individuals, PSKN offers 24/7, hassle-free access to training courses to get started in a new career or on-going professional development. For employers, we support complete training solutions — from off-the-shelf courses to custom course development and learning environments. PSKN makes your timing easy, cost-effective, and stress free.

Our flagship courses are:

- Basic Security Training
- Introduction to Private Investigation

We also offer a full catalogue of complimentary courses for continued learning and professional development on relevant topics to professional security companies.

PRIVATE SECURITY TRAINING NETWORK

Training employees with the right skills to succeed on the job can improve productivity and quality of work leading to higher client satisfaction. But finding the time, money, and available trainers to deliver training can be a challenge.

The Professional Security Knowledge Network (PSKN) has high quality, cost effective online learning in Basic Security Training, Introduction to Private Investigation and other relevant e-courses to meet the needs of private security and private investigation professionals.

Great training. It really builds the confidence to work as a security professional!

- Student, Basic Security Training

OUR E-COURSES

- **Save Time:** Train more employees more often regardless of their location. One classroom day can be delivered in 1 – 2 hours of online learning time.
- **Save Money:** Online and blended learning decrease costs associated with training venues, training salaries, travel, and accommodations.
- **Enhance competitiveness:** Private security and private investigation are highly competitive industries. Providing your workforce with comprehensive training resources will not only give you an edge on the competition but also reduce associated risks and liabilities.
- **Streamline Administration:** Straightforward registration and on-demand reporting ensure organizations can easily manage employee training. Our Support Team is also on-hand to assist with registration, reporting, and technical troubleshooting.
- **Improve Learner Outcomes:** set at the pace of the learner and available anytime, anywhere, on-line and blended learning has been proven to be as effective, or better than, traditional training. Learners can spend as little or as much time as they need to understand the course material.
- **Easiest exam:** virtually proctored exams available online from the comfort of the learner's home.

Great course, previously had a security license but it had expired. This was a great way to review information and refresh my knowledge of the security field. Glad I was able to do this in the comforts of my own home.

PRODUCTS AND SERVICES

e-Course Design, Development, and Delivery

We offer a comprehensive catalogue of online learning products specifically designed for private security and investigation professionals. Our expert Design & Development team will also work one-on-one with your organization to create a package specific to your training needs. All our products and solutions are fully supported by our Technical Support Specialists.

Customized Learning Environments

We can help you create a distinct portal within our Learning Management System. Using secure technology, your customized portal allows you to deliver a suite of training to your employees. Tracking and monitoring learning progress, and reporting on employee training can all be easily managed through your portal.

Partnerships to Benefit Our Clients

Originally formed by the Canadian Police Knowledge Network (CPKN), Canada's leader in providing technology enhanced learning for Canadian police, PSKN has exclusive access to a custom list of CPKN courses to offer to corporate clients through PSKN. Talk to us about how to access these special offerings.
